ADVL Congress 2022 Program

Conference attendees are invited to make the most of the conference's large number of attendees, not just attending the sessions but also participating in the social events and networking with other attendees and the conference organizers.

The 2022 ADVL events will be held in hybrid mode with the options: on-site or virtual choices (live, prerecorded videos, presentations, discussions, and Q&A).

Congress is a place where people go to listen to the traditional or site scientific events, however, we are ready to adapt you which way the conference dictate.
