This year's theme: **Online Fraud, Insider Threats and Cyber Crime**

The University of Memphis Center for Information Assurance will be hosting the 3rd Annual Cyber Security Expo at the FedEx Institute of Technology on October 15th, 2010. Information Assurance and Cyber Security experts will be onsite for lectures and networking to address the issues of global cyber security. The event will be held once again at the beautiful FedEx Institute of Technology.

Topics include:

- Identity Theft Rings
- Software Security
- Insider Threats
- Organized Cyber Crime
- and much more!

The speakers include:
