Conference : 27th - 30th January 2021

Welcome to CCWC 2021 (IEEE approval pending)

Continuing from the outstanding success of **CCWC 2020**, we are proud to present CCWC 2021 which will provide an opportunity for researchers, educators and students to discuss and exchange ideas on issues, trends, and developments in Computing and Communication. The conference aims to bring together scholars from different disciplinary backgrounds to emphasize dissemination of ongoing research in the fields of in Computing and Communication. Contributed papers are solicited describing original works in the above mentioned fields and related technologies. The conference will include a peer-reviewed program of technical sessions, special sessions, business application sessions, tutorials, and demonstration sessions. CCWC 2021 is listed in the IEEE conference listing [HERE](#).

Unlike the previous years, the conference committee decided to conduct this year's CCWC as a fully online conference. The safety and well-being of our participants are of the utmost importance to CCWC Committee members. In March 2020 the World Health Organization (WHO) declared Covid-19 a pandemic. After careful consideration and in light of the global health emergency and pervasive travel restrictions, we have made the difficult decision to conduct CCWC 2021 as a fully virtual conference.

This conference will also promote an intense dialogue between academia and industry to bridge the gap between academic research, industry initiatives, and governmental policies. This is fostered through panel discussions, keynotes, invited talks and industry exhibits where academia is exposed to state-of-practice and results from trials and interoperability experiments. The industry in turn benefits by exposure to leading-edge research in networking as well as the opportunity to communicate with academic researchers regarding practical problems that require further research.

Presentation	20th January 2021
Submission:	2021
Conference:	27th - 30th January 2021
