Welcome to ICSGTEIS 2023

ICSGTEIS 2023 Kuta - Bali, Closing Photo Session

It is a great pleasure to welcome you to the 2023 International Conference on Smart-Green Technology in Electrical and Information Systems (ICSGTEIS 2023) which will be held on 2-4 November 2023 in the beautiful island of Bali. This year edition of the ICSGTEIS will be held in *hybrid format (on-site and online)*. The ICSGTEIS 2023 is organized by The Department of Electrical Engineering, Udayana University for international researchers, experts, postgraduate students, and practitioners, to share, exchange ideas, innovation, and experience in the field of Smart-Green Technologies. The conference will feature plenary sessions and technical sessions organized along ten tracks:

- 1) Power, Energy & Industry Applications
- 2) Engineered Materials, Dielectrics & Plasmas
- 3) Fields, Waves & Electromagnetic
- 4) Signal Processing & Analysis
- 5) Communication, Networking & Broadcasting
- 6) Robotics & Control Systems
- 7) Components, Circuits, Devices & Systems
- 8) Photonics & Electro-Optics
- 9) Computing & Processing (Hardware/Software)
- 10) Software Engineering and Information Systems

We eagerly await your contributions to our conference and invite you to experience Bali’s rich culture and hospitality.
