Conference : 17- 19 October 2019

Welcome to IEEE IEMCON 2019

Continuing from the outstanding success of IEEE IEMCON 2018, we are proud to present IEEE IEMCON 2019 which will provide an opportunity for researchers, educators and students to discuss and exchange ideas on issues, trends, and developments in Information Technology, Electronics and Mobile Communication. The conference aims to bring together scholars from different disciplinary backgrounds to emphasize dissemination of ongoing research in the fields of Information Technology, Electronics and Mobile Communication. Contributed papers are solicited describing original works in the above-mentioned fields and related technologies. The conference will include a peer-reviewed program of technical sessions, special sessions, business application sessions, tutorials, and demonstration sessions.

All accepted papers will be presented during the parallel sessions of the Conference and the accepted and presented papers will be submitted for publication at IEEE Xplore® digital library (Scopus, DBLP, Ei Compendex, Web of Science and Google Scholar).

IEEE IEMCON 2019 is listed in IEEE conference listing [HERE](#).

This conference will also promote an intense dialogue between academia and industry to bridge the gap between academic research, industry initiatives, and governmental policies. This is fostered through panel discussions, keynotes, invited talks and industry exhibits where academia is exposed to state-of-practice and results from trials and interoperability experiments. The industry in turn benefits by exposure to leading-edge research in networking as well as the opportunity to communicate with academic researchers regarding practical problems that require further research.

Vancouver, a bustling west coast seaport in British Columbia, is among Canada's densest, most ethnically diverse cities. A popular filming location, it's surrounded by mountains and invites outdoor pursuits of all kinds, but also has thriving art, theatre and music scenes. Vancouver Art Gallery is known for its works by regional artists, while the Museum of Anthropology houses preeminent First Nations collections. Please see the beauty of Vancouver here and top 10 attractions of Vancouver [here](#).
